

# Remote Sensing/SAR Satellite Imagery Analysis and Utilization System using Deep Learning Model

Hyojin Lee

Global Marketing Manager, SPH

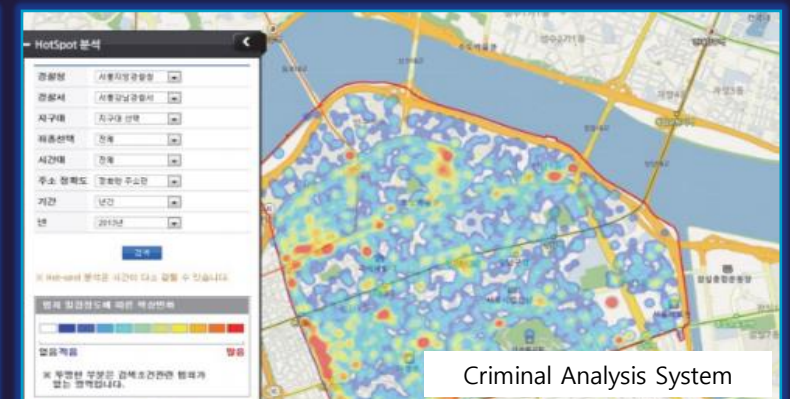

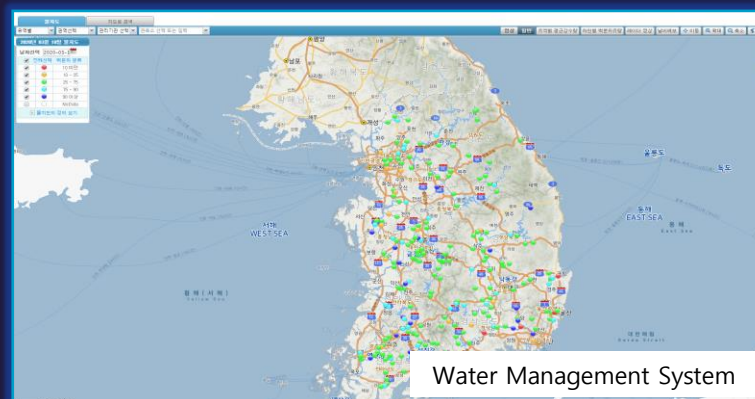

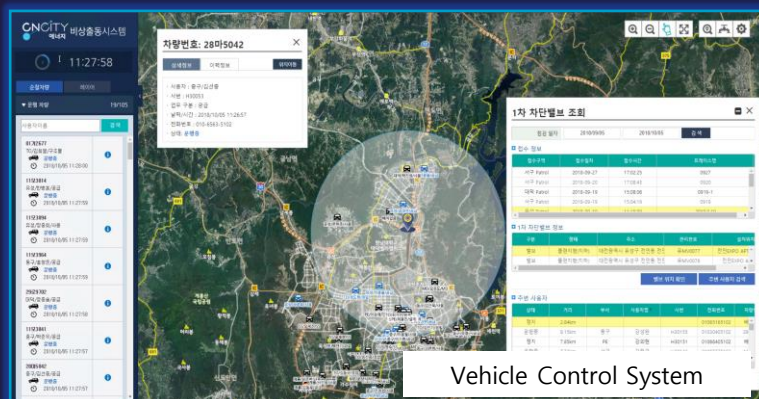

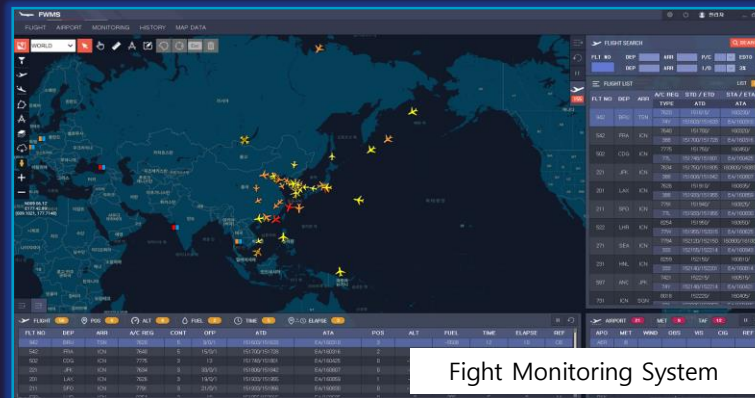

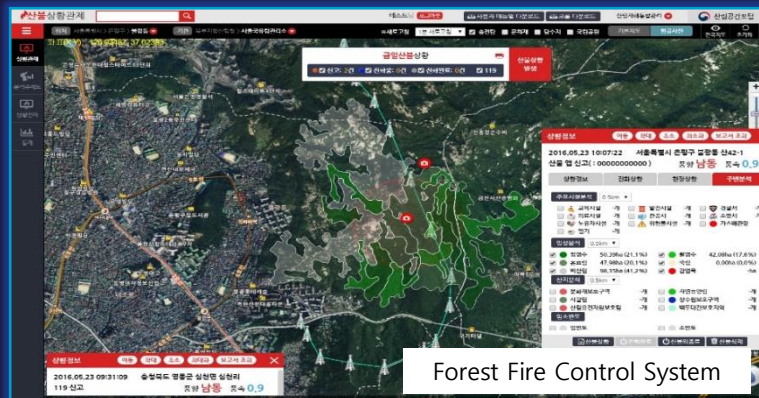

# SPH History

**"Making a Story of Human and Place with Technology."**

# SPH History

- Provided various Business Systems using SuperMap to Government, Private enterprises, and Schools

# SAR(Synthetic Aperture Radar) Imagery

- SAR (Synthetic Aperture Radar)

An active electromagnetic wave radar sensor that obtains imagery information using microwaves

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

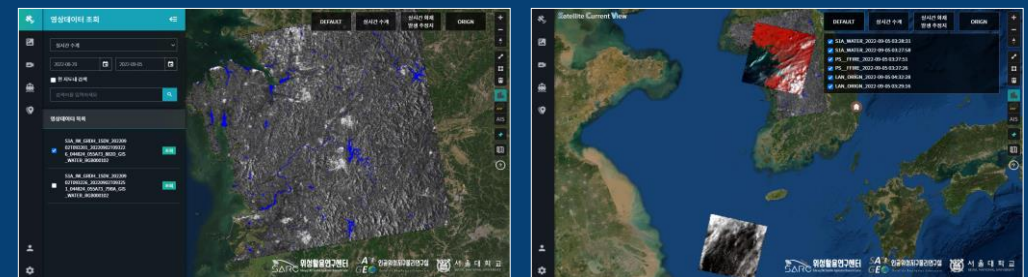

- Remote Sensing/SAR Satellite Imagery Analysis using Deep Learning
- Remote Sensing Imagery Display system for visualization of massive data

## Remote sensing/SAR satellite Imagery Analysis and Utilization System

### Remote Sensing/SAR Satellite AI Web Service

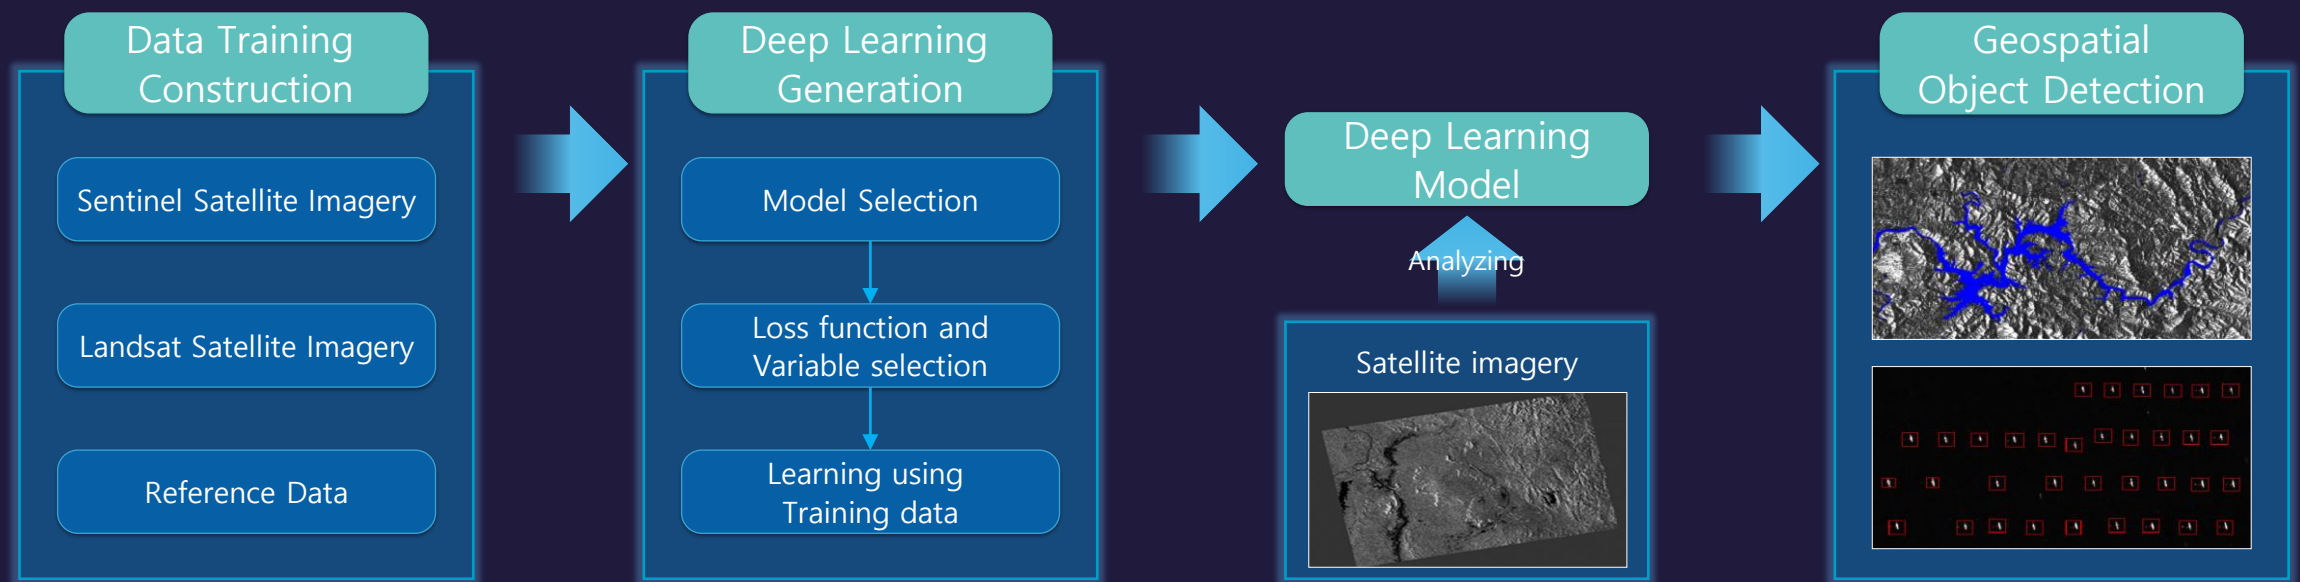

### Analyzed Satellite Imagery Utilization Service

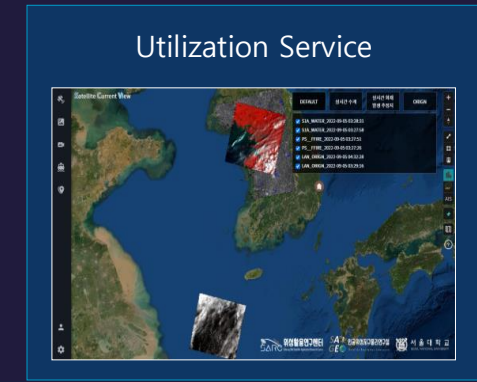

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

- Example of a general process for Deep Learning model generation for Remote sensing/SAR imagery analysis

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

Geospatial Object Detection (10types) + Analytical Model (3types)

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

- Examples of Geospatial Object Detection, Analyzed Model Utilization

Ship Detection

- Control of illegal fishing
- Monitoring marine pollution, such as oil spills.

Vehicle Detection

- Used for marketing and research materials.

Building Detection

- Monitoring the progress of large-scale construction works.
- Prevention of illegal land or construction use.

Natural Disaster Analysis

- Analysis of the size of the damaged area due to natural disasters.

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

## Technologies used

## Key Function

Satellite Imagery Data Visualization

Weather Data Visualization

Imagery Data Analysis Visualization

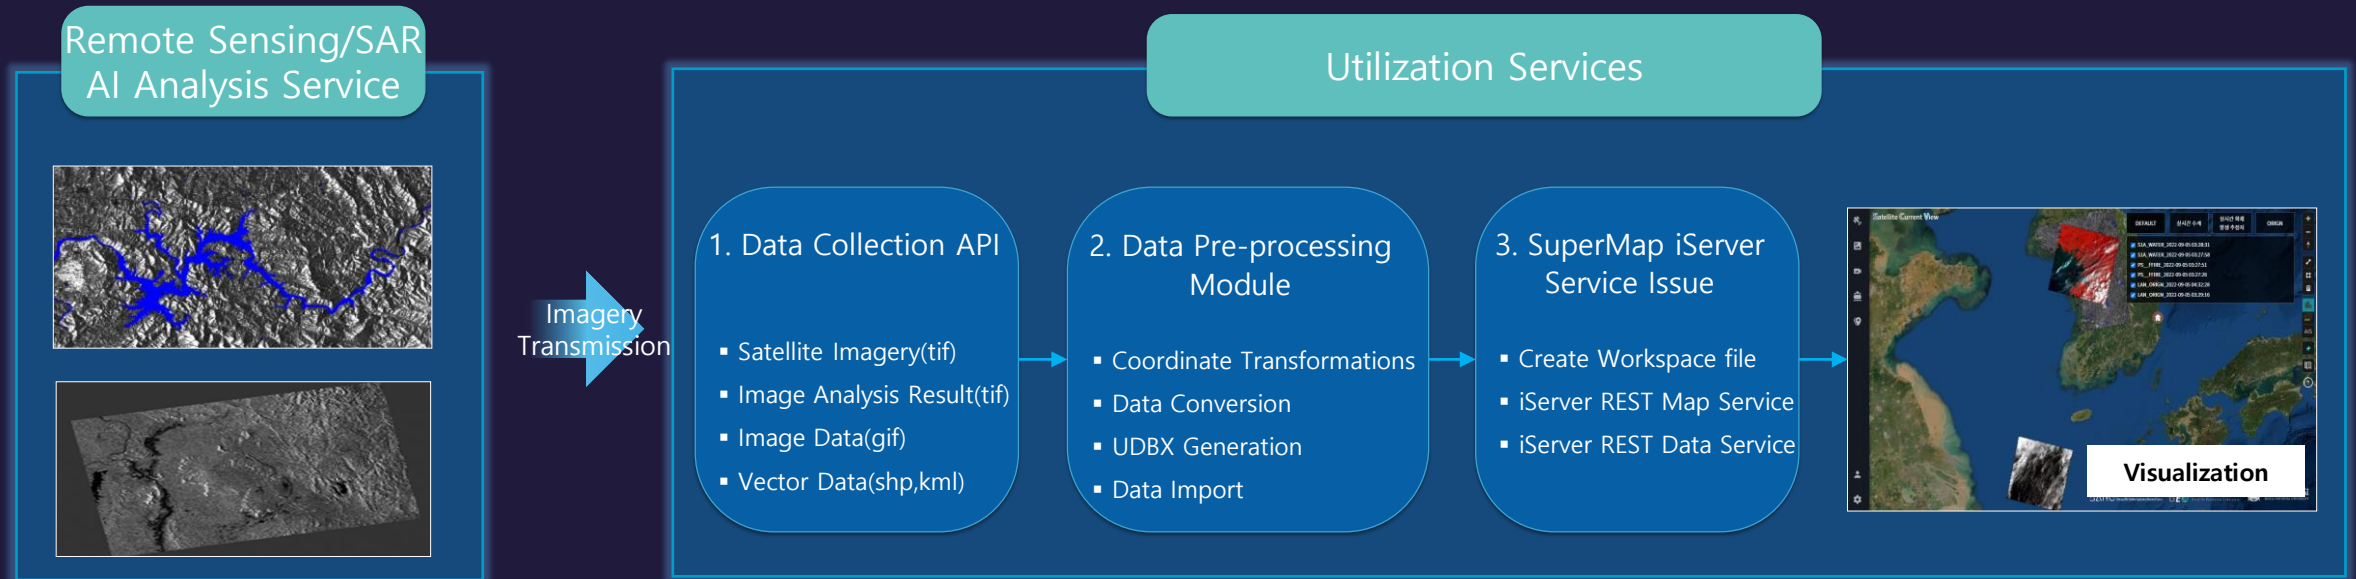

AIS Data Visualization

GIS Data Visualization

User Management

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

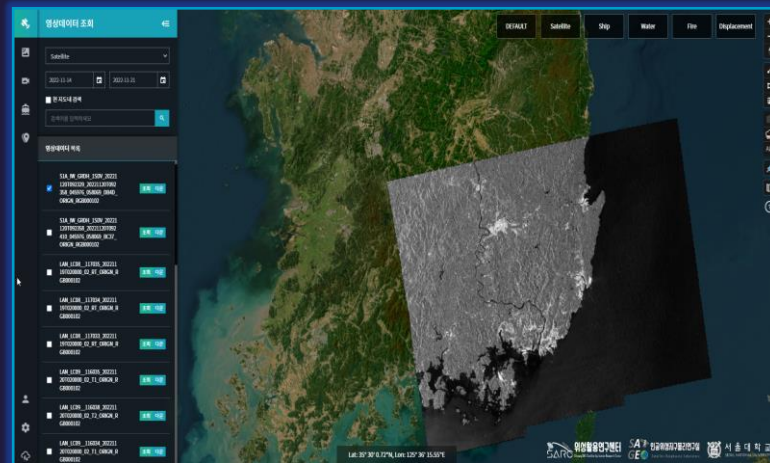

- Example of a general process for Visualization of Satellite Imagery Analysis Data using SuperMap

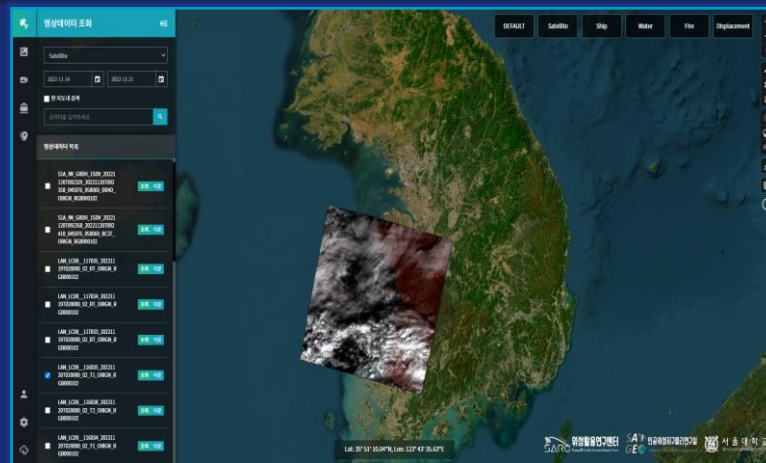

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

## Satellite Imagery Data Visualization

- Visualization of Remote Sensing/SAR Imagery with location information and distortion correction

Sentinel S1A Satellite

Landsat 8 Satellite

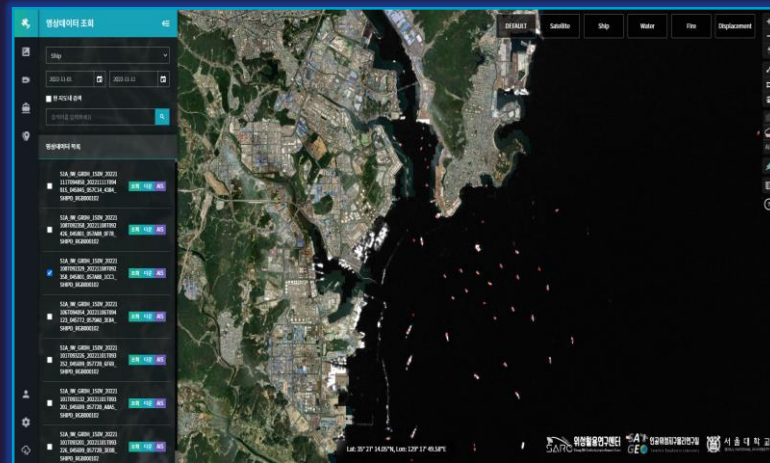

Himawari 8 Satellite

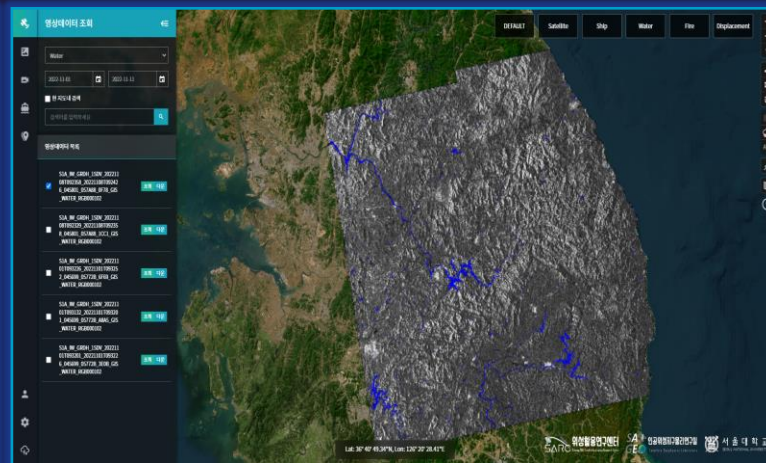

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

## Imagery Data Analysis Visualization

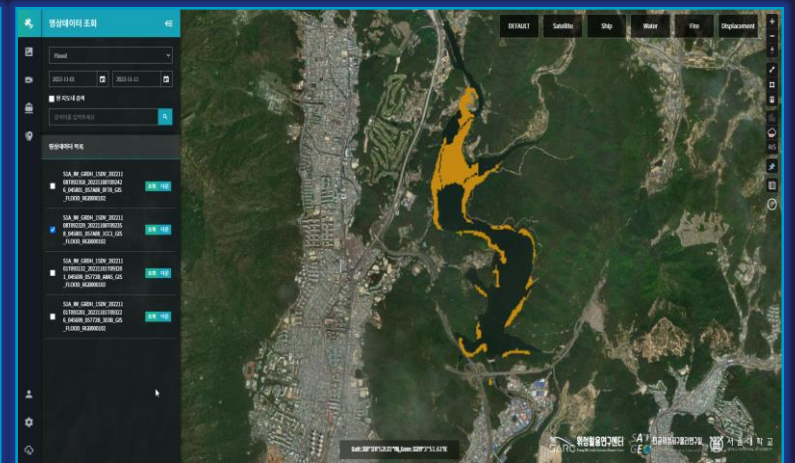

- Visualization of the Spatial Object Detection of Remote Sensing/SAR Imagery analyzed

Ship

Water

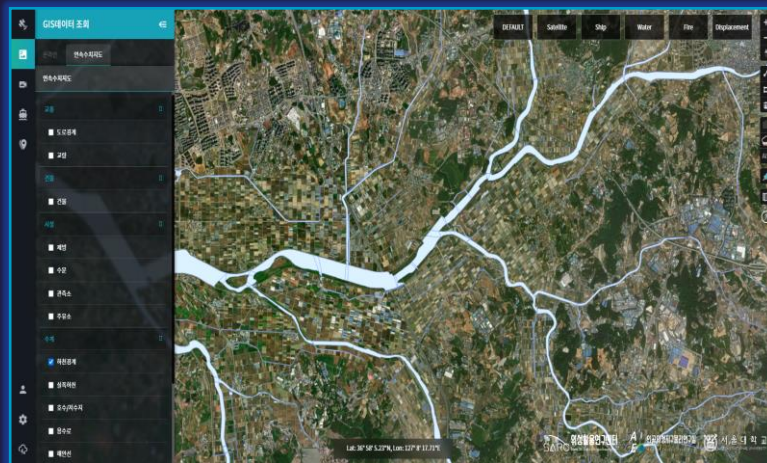

Flood

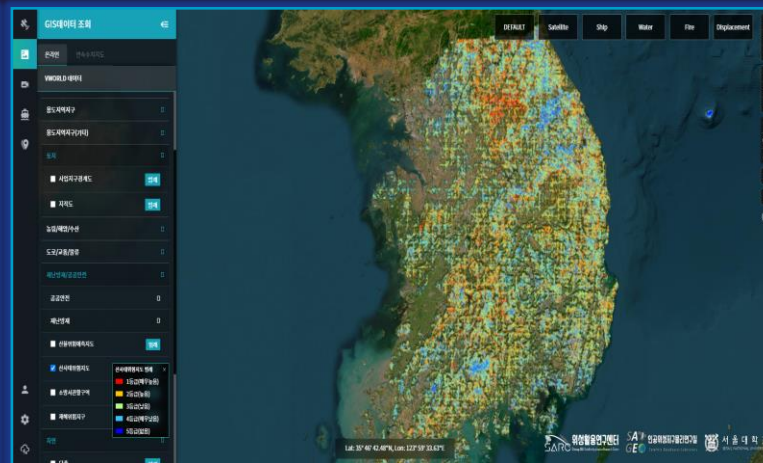

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

## GIS Data Visualization

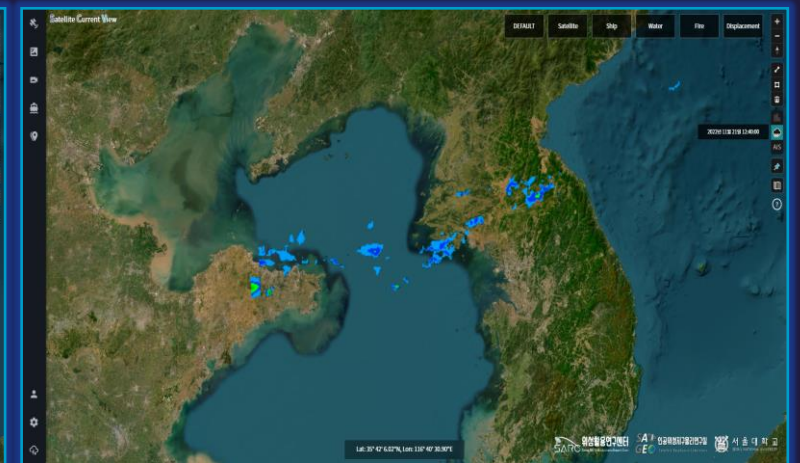

- Visualization of GIS data using Public Open Data and SuperMap iServer REST API

OPEN API - River

OPEN API - Landslide

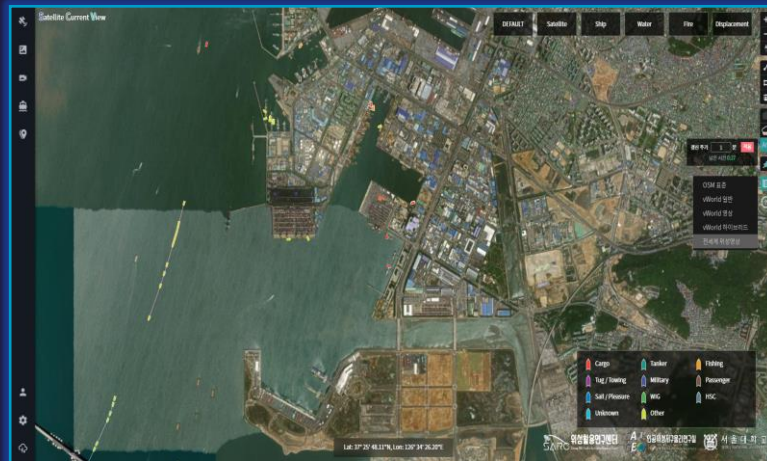

OPEN API - Weather

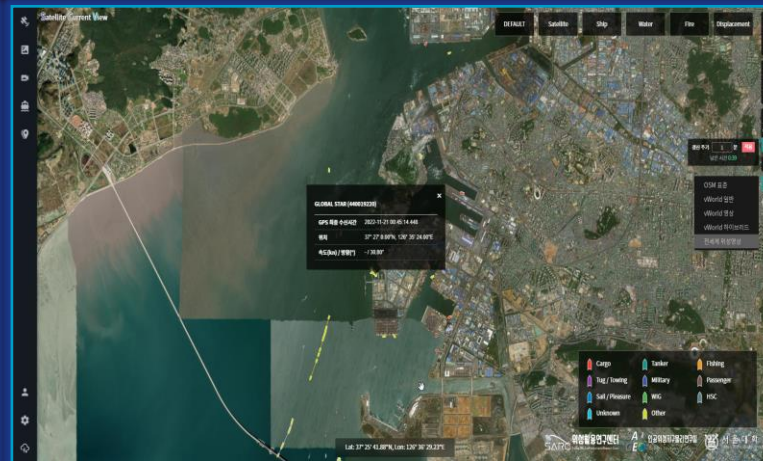

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

## AIS Data Visualization

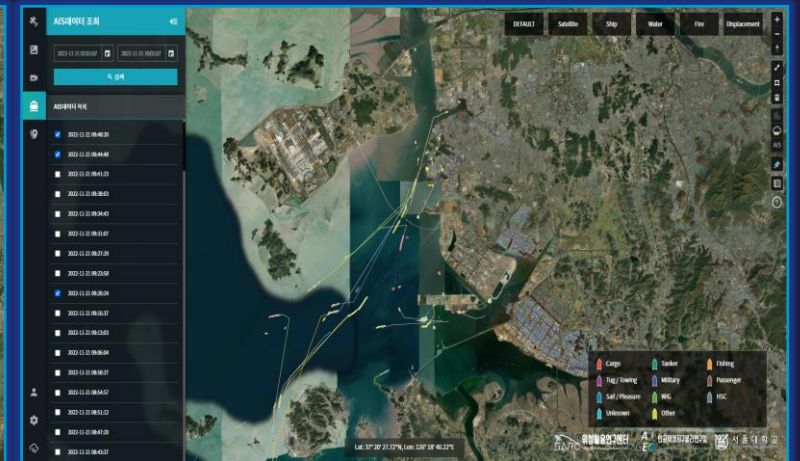

- Visualization of Automatic Identification System (AIS) updated every 5 minutes

Real-time ship location

Ship Information

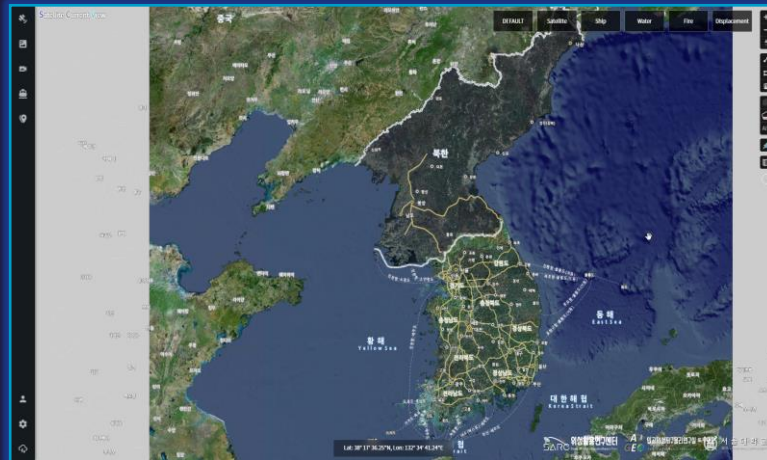

Ship Search

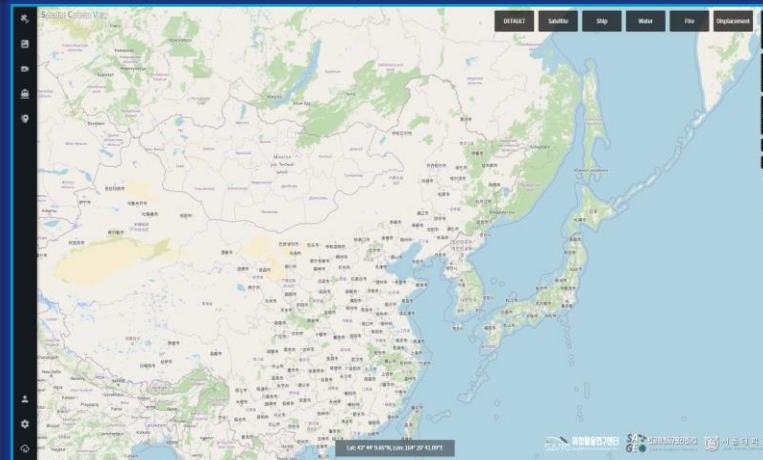

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

## Various Map Background

- Provided various Background Maps

VWorld(KOR)

OpenStreetMap

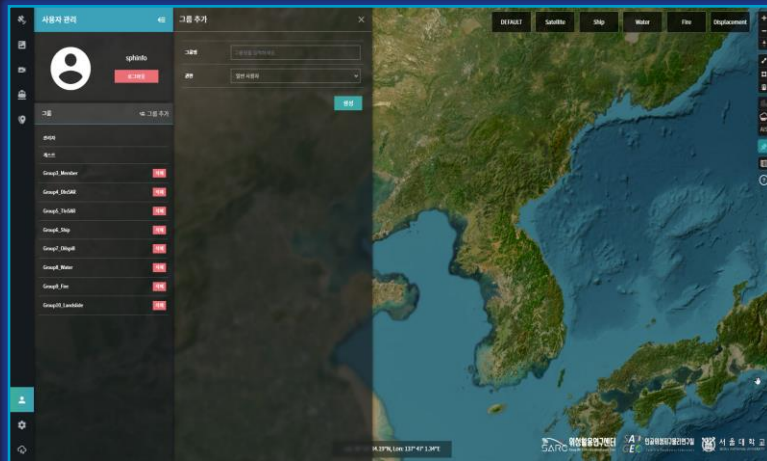

Global Satellite Imagery

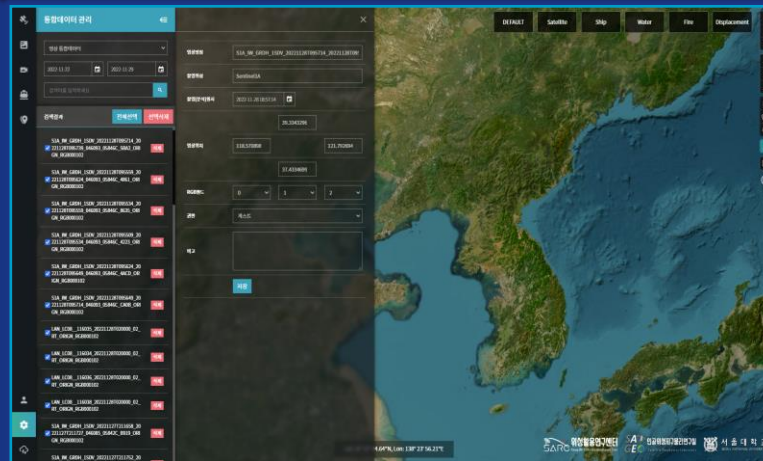

# Remote Sensing/SAR Satellite Imagery Analysis & Utilization System

## Administrator Section

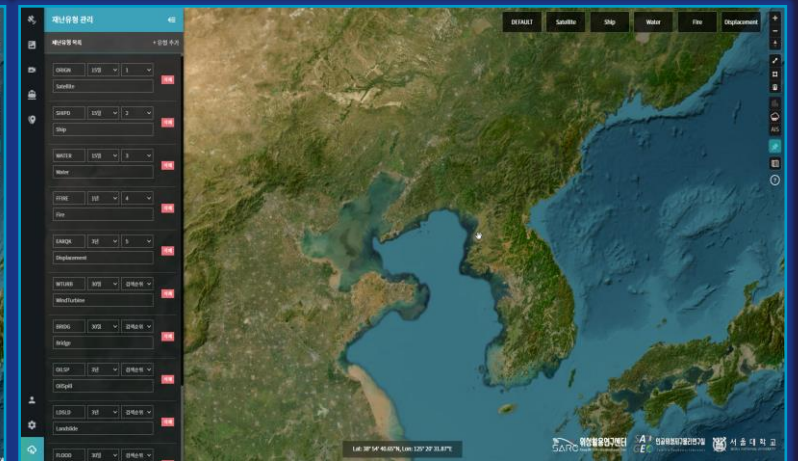

- Provided functions that only administrators can use

User Management

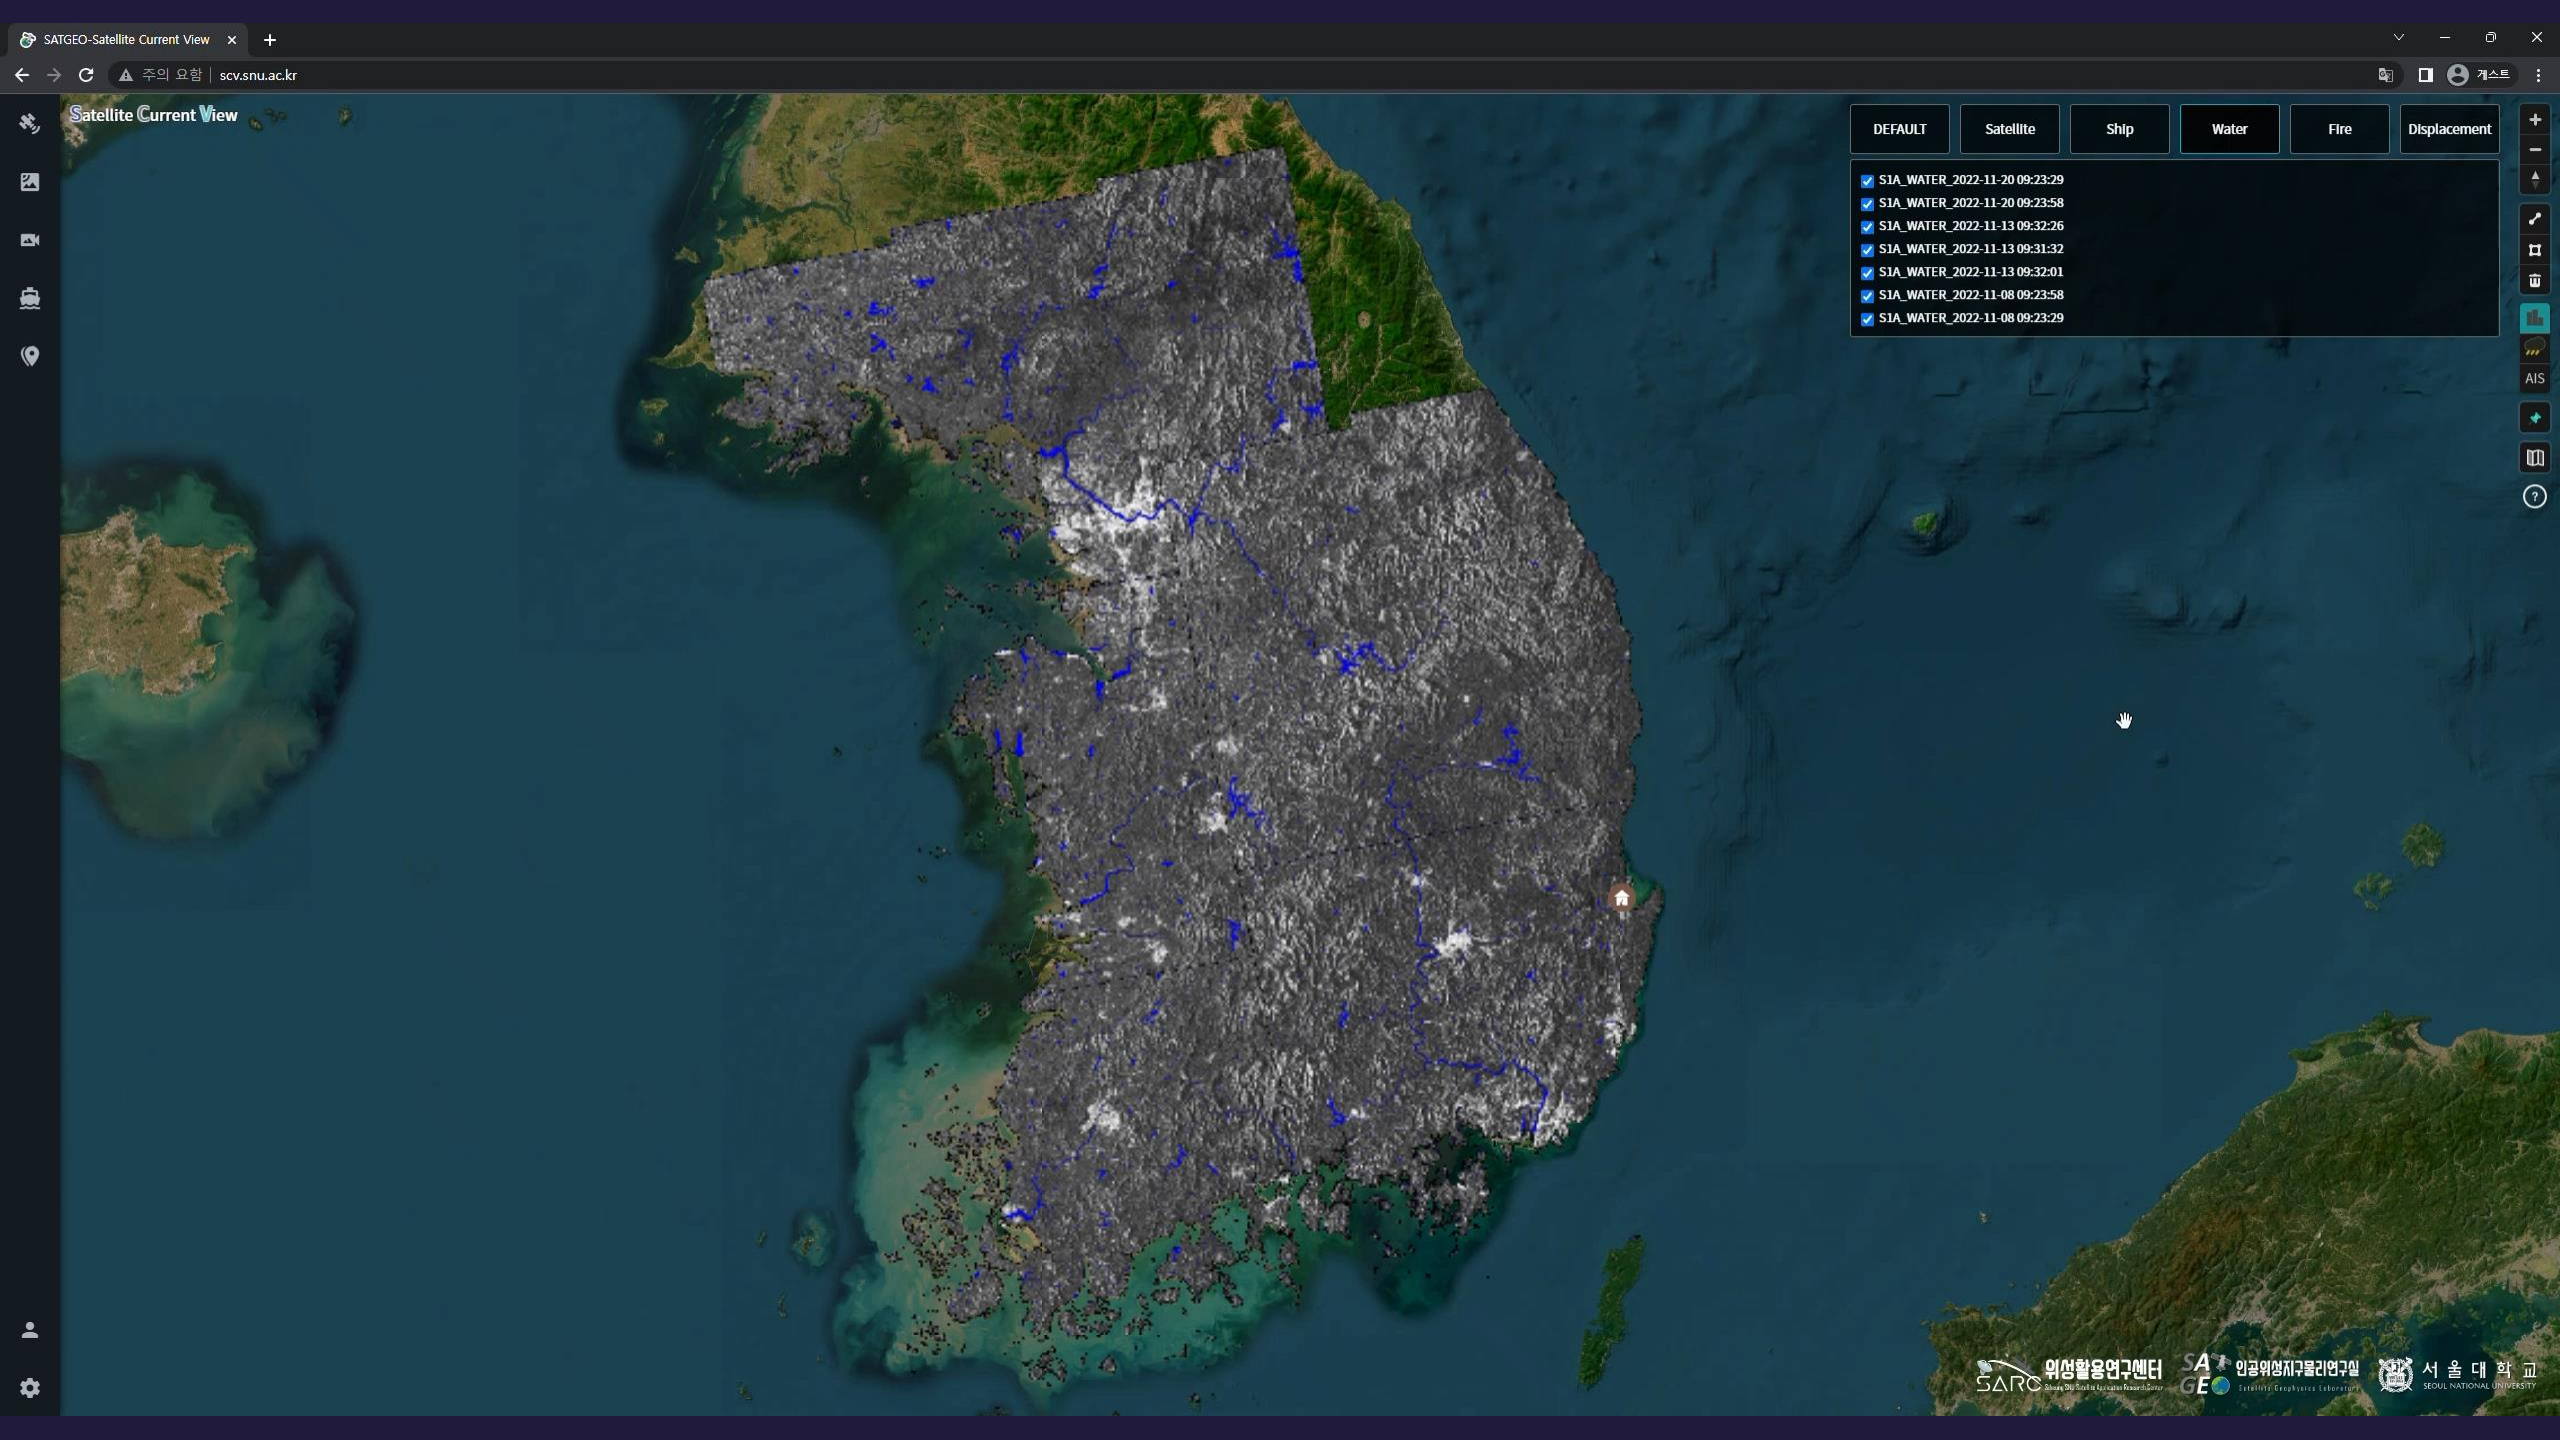

Data Deletion

Spatial Object Detection

Thank you !
